Gilson Gardner Says Monroe Doctrine Not at Stake—H. L. Wilson Had Financial Interests in Mexico.

WASHINGTON, Aug. 1.—Yes, there will be currency legislation at this session of congress, Pres. Wilson is standing pat. He is standing all the pattern on account of the new development in Wall st.

"Wash sales" of two percent government bonds to establish new low records and depress the market rather than confirm him in the belief that his currency legislation would be beneficial. These facts confirm other people in the opinion that the proposed act is in the interest of business and the people more than it is for the special benefit of bankers as a class.

The attitude of reactionaries in the house committee, like Bulkley of Ohio, and Korbly of Indiana further confirms this belief. Gallinger's protest in the senate is an endorsement likewise of the Wilson bill. Altogether it seems wise that everybody should stay through the hot weather and pleasant fall and consider currency legislation.

Anyhow the tariff is nearly over. The Mexico Question. The administration's Mexican policy is easy to understand, and with it the reason for withdrawing Henry Lane Wilson. Pres. Wilson announced during his intrigues of Mexico or other revolutionary neighbors, Henry Lane Wilson was an active participant in the Mexican intrigue. He was a violent Huerta partisan and it is voluminously charged in documents now on file with Secy. Bryan that he became interested personally in certain financial transactions growing out of claims held by Americans and others against the Mexican government. Recognition of the Huerta regime would have been followed by the payment of these claims.

It is safe to say that Ambassador Wilson will not return to Mexico, and that if his resignation is not now filed it very soon will be.

The policy of this administration toward Mexico is one of non-interference in affairs which do not concern us. Our official sympathies will be with a constitutional form of government and the people who are fighting for their liberties. This has been the traditional policy of the United States since the republic was founded.

Not Collection Agency. There is nothing in the alleged Monroe doctrine which is contrary to this program. The Monroe doctrine does not mean American responsibility for foreign claims on this continent. It does not mean underwriting speculative securities of foreign investors. It does not mean forbidding foreigners to protect their citizens.

The Monroe doctrine has been more misrepresented than any official policy ever declared. The Monroe doctrine was the announcement by Pres. Monroe that "The American continents by the free and independent condition which they have assumed and maintained are henceforth not to be considered as subjects for future colonization by European powers."

OUTBURSTS OF EVERETT TRUE.

participate in the conference of the progressive senators who met to take action on the tariff opposed to the leadership of Reed Smoot.

Penrose Kisses Babies. One of the humors of the sultry season it to be seen in the fact that Penrose has been compelled by the new constitutional amendment to seek re-election by popular vote of the people of Pennsylvania. He has already started on a speaking and baby-kissing campaign in that state. Penrose has become "progressive" and inclines favorably toward woman suffrage!

WANTED TEACHERS. DETROIT.—Detroit is facing a serious scarcity of public school teachers. Competent instructors are almost impossible to be obtained. Superintendent Chadsey claims the reason is the low salary scale.

PITTSBURGH.—One Chinaman in jail here entered America in a box car, via Canada, at a cost of \$2,000. Another crossed the Rio Grande on a Mexican's back for a quarter.

Another solo, an instrumental number, will feature the program. John Kuhn, who has been announced a number of times but has always been obliged to cancel owing to either injury or illness, will play the beautiful song from Wagner's great opera, "Tannhauser," "The Evening Star."

The Queen's Chariot to be Snow White.

The Queen's chariot will be snow white and will be driven by two canopied ponies on WEDNESDAY, AUG. 6th, the second annual Girls' White Dress Parade at SPRINGBROOK PARK. Who will be the Queen? No city in Indiana has more charming and dainty misses than South Bend and Mishawaka. Some one will be chosen and will receive the beautiful Diamond Ring. She will wear it all her life, and often recall the days of her girlhood, when her own natural grace of manner made her the choice of capable and discriminating judges. If you wish to enter the parade just drop a postal to Mr. Dailey, Manager Springbrook Park, with your name and address.—Advertisement.

PERMANENCE AND BRIGHT'S DISEASE

We have been asked if the recoveries in Bright's Disease made by Fulton's Renal Compound are permanent. Many cases have established permanence. For instance in the case of R. M. Wood, Editor of the Wine and Spirit Review of San Francisco, Cal. It was twelve years ago that "the most noted analyst in San Francisco" established the genuineness of the case. The editor's physician told him that medicine would not avail him and advised him to go to Santa Barbara. He dropped from 225 to less than 100 pounds in a short while. On his return he was put on Fulton's Renal Compound and not only made a recovery but the reality and permanence of it may be judged from the fact that he is well at this writing, January, 1913.

Thousands of cases of Bright's Disease have reported progress or recovery under Fulton's Renal Compound. Medics works admit that they have nothing to control chronic Bright's Disease. And the deaths of nearly ninety thousand annually. If you have Bright's Disease you owe it to yourself and family to try Fulton's Renal Compound before giving up. It can be had at Woods and Striebel's. For pamphlet on our investigation into the curability of Bright's Disease write John J. Fulton Co., San Francisco.—Advertisement.
